ROBO WRAP	•		ROBOTISED	UP TO 60

MAXIMUM EFFICIENCY
MINIMUM ENVIRONMENTAL IMPACT

ZAMBELLI SUSTAINABILITY

ZAMBELLI PACKAGING MACHINES OFFER MAXIMUM ENERGY EFFICIENCY AND SUSTAINABILITY

Our internal tests show that competitors' machines can consume up to 97% more than Zambelli standards. This translates into real savings on operating costs and a lower environmental impact, without compromising on performance.

	COMPETITOR 1	COMPETITOR 2	COMPETITOR 3
POWER	+ 62 %	+ 68 %	+ 97 %

EFFICIENCY THAT MAKES A DIFFERENCE

Zambelli Packaging technology allows the use of thin films, further reducing the energy absorbed during heat shrinkage. Zambelli Packaging solutions combine high performance with optimised energy consumption, offering efficiency that translates into concrete value for the customer.

SUSTAINABILITY

Innovative systems installed on Zambelli Packaging machines minimise heat loss in shrink tunnels, improving thermal efficiency and ensuring smarter energy use.

ZAMBELLI CARE

MORE THAN JUST ASSISTANCE, A GUARANTEE OVER TIME

Rapid interventions, intelligent maintenance, continuous upgrades: the future of your machine begins today

Global Support

Zambelli's support service guarantees prompt assistance. Our experts are available through various communication channels and respond promptly in urgent situations. Where required, we arrange on-site assistance worldwide.

Maintenance

We organise technical support to ensure optimal maintenance of our systems, promoting longevity and reliable performance over time.

Spare Parts

Using original Zambelli spare parts protects the value of your machine. Spare parts are always available at our head quarters' warehouse and operating branches.

Upgrade Kits

Machine upgrade kits are available to ensure maximum value for your investment over time.
